📇 PROFILE

Born in Mexico and grew up in the US. I'm an EE graduate turned into a passionate web developer living in Tokyo.

I enjoy designing and building responsive web applications. I'm also a big fan of European football.

I'm looking to bring my skills to a new position as a web developer at a company with open culture that can allow me to grow and learn more skills.

🧠 SKILLS

Frontend Languages (HTML, CSS, JavaScript, Bootstrap, React, SCSS)

Backend Languages (Ruby, PostgreSQL, Ruby on Rails, MongoDB, GraphQL)

Other (Git, Figma, AutoCAD, Photoshop)

🌐 LANGUAGES

Spanish (Native) | **English** (Business)

Japanese (N3 Level)

📜 CERTIFICATES

Japanese Language Proficiency Test - N3

📁 PROJECTS

AllyMaps, *A trip planner for people with disabilities.*
Built with Rails, PostgreSQL, and Heroku. This app allows people with disabilities to plan entire accessible trips from searching places to the routes to and from the places in their itineraries.

Ninja Garage,
A marketplace where you can rent unique looking cars.
Built with Rails, PostgreSQL, and Heroku. This app allows users to rent/rent out vehicles of different Japanese car subcultures like "Itasha", "Bosozoku Bikes" and "Decotora".

Fantasy Dream Team,
An app where you can create your dream football team.
Built with Rails, PostgreSQL, and Heroku. This app allows people to create teams with players of their choosing by selecting famous players and adding them to their custom teams.
